ACKNOWLEDGEMENT

- I would like to express my sincere gratitude to my teacher for giving me the opportunity to complete this project. Their valuable guidance and support helped me complete this work successfully.
- I am also thankful to my school/college for providing the necessary resources and environment to complete this project.
- I would like to thank my parents and friends for their encouragement, support, and helpful suggestions during the preparation of this project.
- Lastly, I would like to thank everyone who directly or indirectly helped me in completing this project successfully.

INTRODUCTION

This mini project focuses on designing a simple yet functional e-commerce store website using HTML and CSS. The goal is to create a visually appealing and user-friendly interface where customers can browse products, view details, and navigate through different sections of the store. CSS plays a crucial role in styling the layout, enhancing the design with colors, fonts, and responsive elements, and ensuring the website looks professional across devices.

Objectives

To design a functional prototype of an e-commerce store using HTML and CSS, focusing on layout and styling.

To apply CSS concepts such as Flexbox, Grid, media queries, transitions, and animations in a real-world project.

To create a responsive interface that adapts smoothly to different screen sizes (desktop, tablet, mobile).

To enhance user experience (UX) with intuitive navigation, styled buttons, hover effects, and product displays.

To demonstrate creativity in web design by choosing appropriate color schemes, typography, and branding elements.

key features

Responsive Layout

Designed with CSS media queries to adapt seamlessly across desktops, tablets, and mobile devices.

Navigation Bar

A clean, styled menu with hover effects for easy access to product categories and pages.

Product Grid Display

Products arranged in a visually appealing grid using CSS Flexbox or Grid, ensuring uniform alignment.

Interactive Buttons

Stylish "Add to Cart" and "Buy Now" buttons with hover transitions and color changes.
